

Inside Elections/NPI MT-01 Public Opinion Poll

This poll was conducted via text-to-online and live caller. The survey was completed by Noble Predictive Insights from September 11-14, 2024. We contacted a random sample of registered voters in Montana's 1st district using the voter file and determined likely voters via screening questions. The sample size was 432 likely general election voters. The sample was weighted by age, gender, ethnicity, county, education, and party to reflect the projected 2024 electorate. Numbers may not equal 100% due to rounding. The margin of error was +/- 4.7%. Non-response, coverage error, and other factors may also contribute to error.

Q01_1: Now, here are the names of some people in the news. Please tell me if you have a very favorable, somewhat favorable, somewhat unfavorable, or very unfavorable impression of each. If you have no opinion or have never heard of the person, just say so. - Ryan Zinke

Demographic (raw n), (weighted n)	TOTAL favorable	TOTAL unfavorable	Very favorable	Somewhat favorable	Somewhat Unfavorable	Very unfavorable	Heard of but have no opinion	Never heard of	Refused
